

## Packslip with Back Orders

### REQUEST:

Our Epicor client wanted to quickly and easily communicate to their clients which items were not included with the current shipment.

### SOLUTION:

We modified the Packslip to include the Back Ordered items under the section "Not Yet Available". This information is not included in the packslip xml so we added a subreport to the packslip's Crystal Report which pulls the back ordered information via ODBC:

Johnathan Instruments 2476 Eldridge Ave NW Buffalo MN 55313 USA						Phone: 763.682.0485	
						Page: 1 of 1	
<b>Pack Slip: 0011252</b>				<b>Packing Slip</b>
